

## NacoSol 1016

### Description:

NacoSol 1016 is the high-purity hydrocarbon solvent with highly safe. It can be used in many industrial and cosmetic as excellent eco-friendly solvents.

### Performance:

- \* Colorless and high purity
- \* Environmentally friendly and Good biodegradability
- \* Low aroma content and low sulfur content
- \* Good low temperature performance and solvency
- \* Excellent drying and distillation recovery
- \* No rusting, Compatibility with metals

### Characteristics:

Item	Unit	Typical	Test Method
Appearance	—	Bright & Clear	Visual
Color	APHA	5max	ASTM D1209
Density	g/cm <sup>3</sup> (15°C)	0.706	ASTM D4052
Flash Point	°C (TAG)	5 max	ASTM D56
Distillation Temperature	°C (IBP)	100	ASTM D86
	°C (50%)	125	
	°C (EP)	147	
Refractive Index @20°C		1.40	ASTM D1218
Kinematic Viscosity	cSt(37.8°C)	0.60	ASTM D446
Bromine Index	mgBr2/100g	0	ASTM D2710
Sulfur Content	wt ppm	5 max	ASTM D3120
Chlorine Content	wt ppm	1 max	ASTM D5808
Aroma Content	wt ppm	5 max	UOP495

### Application:

- \* Metal Cleaning (Metal Parts, LCD)
- \* Low odor Fuels
