## DowSyn ${ }^{\circledR}$ PB1300

## Description

DowSyn ${ }^{\circledR}$ PB1300 is the low molecular polyisobutylene with water－white，hydrophobic and non－toxic．It has narrow molecular weight distribution and negligible sulfur content with chemically stable and resistant to oxidation by both light and moderate heat．

## Characteristic

Water－White Color（transparent viscous liquid）Excellent Electrical Insulating Properties
Non Odor \＆Non－Toxic \＆High Purity Great Water Repellency（very low moisture transmission rates）
Tacky Outstanding Lubricity \＆Permanently Non－Drying
Hydrophobic \＆Inertness Clean Decomposition \＆No Residue
Excellent Stability of Oxidant and UV Light
Non－Staining Characteristics（non－corrosive）
Superior Shear Stability

## Typical performance

| Item | Unit | Typical |  |
| :--- | :--- | :--- | :--- |
| Molecular Weight $(\mathrm{Mn})$ | - | 1,300 | Test Method |
| Kinetic Viscosity $\left(100^{\circ} \mathrm{C}\right)$ | cSt | 644 | ASTM D445 |
| Flash Point（COC） | ${ }^{\circ} \mathrm{C}$ | 224 | ASTM D92 |
| Color（AHPA） | - | 5 | ASTM D1209 |
| Pour Point | ${ }^{\circ} \mathrm{C}$ | ASTM D97 |  |
| Loss on Heating | Wt－\％ | 0.45 | In House |
| Water | Wt－ppm | 20 | ASTM D6304 |
| Acid Value | $\mathrm{mg} \mathrm{KOH} / \mathrm{g}$ | 0.01 | ASTM D974 |
| Total Sulfur | Wt－ppm | 1 | ASTM D2785 |

## Application

## Lubricants

Two－Stroke Engine Oils，Compressor Oils， Metal Working Fluids，Hydraulic Fluids，Gear Oils， Grease，Wire Rope Protective
Adhesives
Pressure Sensitive Adhesives（PSA），
Hot－Melt Adhesives（HMA）
Water－Based Adhesives（Polybutene Emulsion）
Polymer（HIPS）／Rubber／Asphalt Modification
Rat／Fly Trapping component

## Caulks \＆Sealants

Automotive Sealant，Window Sealant，
Tire Sealant（Puncture sealant）
Stretch Wrap／Silage Film（using PB Master Batch）
Food Additives \＆Personal Care－Gum Base，Cosmetics
Electrical Insulation
Cable Jelly Compound，Submarine Cable Insulating Oils
Cable Insulation Oils，Condenser \＆Capacitor
