

Isohexadecane Solvent

Product Type: IsoParaffin

Characteristics:

- * Highly purified isoparaffine
- * Clear bright liquid with low odor
- * Low aroma and sulfur content
- * Good drying property
- * Completely compatible with wax, silicone and medicament
- * Lower viscosity and density with light oilness
- * Environmentally friendly and Good biodegradability
- * Low- μ formulation suitable for cosmetic applications

Performance:

Item	Unit	Typical	Test Method
Appearance	Bright & Clear	Bright & Clear	
Color	APHA	5max	ASTM D1209
Density@15 °C	g/cm ³	0.791	ASTM D4052
Flash Point (PM)	°C (PM)	84	ASTM D93
Distillation Temperature	°C		ASTM D86
5%	°C	211	
95%	°C	256	
Kinematic Viscosity@37.8°C	cSt	2.65	ASTM D446
Bromine Index	mg/100g	10max	ASTM D2710
Sulfur Content	ppm	1max	ASTM D3120
Chlorine Content	ppm	1max	ASTM D5808
Aroma Content	ppm	10max	UOP495-75
Water Content	ppm	10max	ASTM D6304
Aniline Point	°C	89	ASTM D611

Application

Cosmetics, such as eye shadow, eyeliner, lipstick, Skin Care Products and Sun Protection Products etc.

Package: 159KG
